MEDICAL.

Heart Disease Kills

Saldenly; but never without warning symp-toms such as Faint, Weak or Hungry Spella, Irregular or Intermittent Pulse, Finttering or Palpitation of the Heart, Choking Sensa-tions, Shoriness of Breath, Swelling of Feet and Ankles, etc.

Dr. Miles' Heart Cure. Cures Heart Disease.

Mr. Geo. L. Smith, of the Geo. L. Smith fintel Co., Louisville, Ky., writes Feb. 26, "For about a year I was a terrible suf-from heart trouble, which got so bad ferer from heart trouble, which got so bad Iwas obliged to sit up in bod to get my breath. I had to abanden business and could hardly crawl around. My friend, Mr. Jelius C. Voght, one of our leading pharmacits, asked me to try Dr. Miles' Heart Cure. I had used little more than a bottle when the pain ceased and palpitations entirely disappeared. I have not had the slightest trouble since, and today I am attending to business as regularly as over.'

BRINGS A CRISIS.

Grave Situation in Mining Circles is Developed.

DE ARMIT'S CUTTING OF WAGES

Makes a Serious State of Affairs-Men Are Moving Carefully - Miners' Executive Committee Advises Against Further Reductions-Workers Prepared to Move.

PITTSBURGH, Pa., Feb. 2.-There was consternation and surprise among operators and miners over the an-nouncement by President De Armit, of the New York and Cleveland Gas Coal Company, that true uniformity did not exist in the district, and therefore his company would reduce the pay of its miners 10 cents a ton. The district executive board of the United Mine Workers was called together, and a meeting of that body held at Knights of Labor hall to consider the action of President De Armit. President Patrick Dolar-presided at the meeting. After a thorough discussion of the matter the following resolution was passed unanimously:

Whereas, after De Armit has paid

the following resolution was passed unanimously:

"Whereas, after De Armit has paid the district price for a short time, and has now reduced the price of mining at his mine; and realizing that trouble may occur from this action, be it

"Resolved, By the executive board of district No. 5, United Mine Workers of America, now in sesion, that we advise all miners to take no action on the matter, nor allow any reduction to take place from present prices until the committee of ten has first acted upon the question, and that you hold yourselves in, readiness for any action when called upon by them."

While the executive board was in session, several operators, among them Messrs. Blythe, Shields and Steller, called at the headquarters to learn if possible what action was likely to be taken by the miners' officials. Both miners and operators felt that the move of President De Armit would precipitate another crisis in the mining situation. The miners, officials did not care to express themselves, preferring, as they said, to wait and see what action the committee of ten will take.

A special telegram from Columbus, O., says that when National Secretary Patrick Me Bryde, of the United Mine Workers, was asked for his opinion of the action taken by President De Armit, he replied: "The news respecting the action taken by President Penna is absent, and in his absence I would prefer to say nothing on the subject."

ROSENTGEN'S DISCOVERY

Confirmed by Prof. Wright and Edison. Almost Miraculous Results. NEW HAVEN, Conn., Feb. 2.—A. W. Wright, professor of experimental physics at Yale, has confirmed completely the results of Professor Rosentgen's

sics at Yale, has confirmed completely the results of Professor Rosentgen's photographic experiments, startling as the results at first appear. Professor Wright's experiments were made with a great variety of substances, and it was found that strong impressions were made upon a photograph plate even when it was inclosed in an opaque wrapping of black paper and covered with plne board half an inch thick. In recent experiments made by Professor Wright with plne board interposed, a closed paper box containing aluminium grain weights left a trace upon the plate which appeared as though the box was almost translucent. In his first successful experiment instead of a photographic plate a place of sensitive bromide paper was simply wrapped in stout black paper, absolutely opaque, on which were laid a pair of selssors, a lead pencil and a quarter of a dollar. These objects left a strong impression with remarkably clear outlines of their exact forms.

A New York special says: Thomas A. Edison as soon as Professor Rosentier's almost miraculous success in photographing throng to open the plate with the product of the product of the said to work to find out what there was in it and how it was done. He said today:

"In surgery, for example, I am con-

day:
"In surgery, for example, I am convinced from my own experiments that bullets, dislocated bones, calcareous deposits, etc., may be accurately located by the use of photography and the cathode ray. What is the cathode ray? That is difficult to explain; but you must understand that the electrical poles are-called cathode or positive and ariode or negative."

SILVER BILL PASSED

By the Senate, but that Endaft-How Senators Voted.

WASHINGTON, D. C., Feb. 2.—The silver substitute to the house bond bill passed the senate yesterday by a vote of 42 to 35-a majority of seven.

silver substitute to the house bond bill passed the senate, yesterday by a vote of 42 to 35—a majority of seven.

It was freely stated on the floor of the senate, as has been anounced in these dispatches, that this ends free coinage legislation at this senss free coinage legislation at this session. Several of the friends of the white metal declare that the bill will die in conference and that would be the end of it.

The agreement that was reached Friday, that a vote should be taken on the bill yesterday, drew out a large crowd. The galleries were packed with a throng curious to hear the fate of the financial bill, and the total vote of 77 out of 89 showed how much interest the senators themselves took in the matter.

There was a great confusion in the chamber. The presiding officer rapped repeatedly and called on the sergental-arms to enforce order.

There was a momentary pause, and then no amendments being onered, the presiding officer rapped repeatedly and called on the surgent-at-arms to enforce order.

There was a momentary pause, and then no amendments being outered, the presiding officer rapped repeatedly and called to the surgent and the condition of the whole, to the result in committee of the whole, to the same (except that those who voted nay before voted yea on table motion) as on Gorman's motion to lay on the table. The bill was then reported from the committee of the whole to the senate, and was passed, 42 to 35. The vote in detail follows:

Yeas—Allen, Beacon, Bate, Berry, Blanchard, Brown, Call, Cameron, Canter, Chilton, Clark, Cockrell, Daniel, George, Harris, Irby, Jones, (Ark.), Jones, (Nev.), Kyle, antle, Mitchell, (Orc.), Pasco, Peffer, Perkins, Pettigrew, Pritchard, Pugh, Roach, Shoup, Squire, Stewart, Teller, Tillman, Fettigrew, Pritchard, Pugh, Roach, Shoup, Squire, Stewart, Teller, Tillman, Pettigrew, Pritchard, Pugh, Roach, Shoup, Squire, Stewart, Teller, Tillman, Pettigrew, Pritchard, Pugh, Roach, Shoup, Squire, Stewart, Teller, Tillman, Pettigrew, Pritchard, Pugh, Roach, Shoup, Squi

Bucklen's Arnica Salve.

Bucklen's Arnica Salve.

The beat salve in the world for cuts, brises, sores, lucers, salt rheum, fever sores, tetter, chapped hands, chiblains, corns, and all skin eruptions, and positively cures piles, or no pay required. FINANCE AND TRADE

The Features of the Money and Stoc Markets.

NEW YORK, Feb. 1.-Noon.-Money on call strong at 5 per cent; prime mer-cantile paper 6688 per cent; sterling exchange firm, with actual business in bankers' bills at \$4.88\@4.88\% for demand, and 24.87\204.87\2 for sixty days; posted rates \$4.89\0 4.88\2 and \$4.89\2\04.90; commercial.

sixty days; posted rates \$4.850;
488½ and \$489½@490; commercial,
\$4.86½; bar silver 67½c; Mexican dollars, 53½c.

The volume of business in stock's today was rather below the half holiday average. The prices of most chares
were shaded at the opening, parity
to liquidations from London and moderate selling for that account here and
to liquidation on apprehension of the
probable passage of the fees silver bill
in the senate. Manipulation for an upturn was soon discernible, howeveringgressive strength in prices developed
and sharp advances occurred all along
the line. General Electric was the fasture of the dealings, rising 2 per cent
on rumors that the company had submitted specifications to the Manhattan
railway for a change of motive power
and that the same had been accepted.
The lack of confirmation of the story,
coupled with the general reactionary
movement late in the day, was followed by realizing sales, resulting in the
loss of part of the improvement. The
railway bond market was governed by the identical influence operative in stocks. The
apprepare dealings for the week
were \$12,500,000.

To-day's bond market was irregular,
but mainly firm. The dealings amounted to \$786,000.

Government bonds were heavy with
a decline of 1 per cent in the bid price
of the new 4s. The total sales were
\$50,000.

Business in state securities was very
light, figuring up only \$28,000. The

a decline was. The total sales were \$5,000.

Business in state securities was very light, figuring up only \$28,000. The market was quoted firm. Renewed animation was noted in the speculative mining stocks. The sales were 10,500 shares, with but slight changes in

prices.
State bonds inactive.
Radiroad bonds firm.
Government bonds weak and lower.
with new 4a down 1 per cent.
Evening Post's London financial
cablegram: The stock markets were
quietly firm to-day.
Americans were good and more hopeful in tone. The steamer Aurania today three at least 200,000 pounds in
gold for New York and probably more
will go next week.
